

CLEAN CLAIMS AND A/R MANAGEMENT

Practice management to help improve performance and revenue

Solution description

Clean claims and strong accounts receivable (A/R) management are the cornerstones of our billing and collections solution. The NextGen® Enterprise practice management (PM) solution is engineered around ANSI x12 standards that build and edit claims in real time and allow exceptions-based management of A/R balances. Recent innovations have added patient cost estimation and pre-service collections to the front of the workflow, thereby reducing risk and increasing payment likelihood.

What this solution enables

The practice management solution evaluates practice performance, monitors key performance indicators, and maximizes financial performance.

- Increase productivity with automation
- Streamline patient scheduling and registration
- Create clean claims and reduce denials—resulting in faster payment velocity
- Monitor practice performance and gain powerful insights into underperforming areas with robust reporting

What does this mean for your practice?

- Achieve higher productivity with fewer resources
- Increase payment accuracy and velocity
- Benefit from fast and efficient collection cycles

“By partnering with NextGen Healthcare, we get personal attention combined with national and statewide understanding of billing and orthopedic regulations and guidelines. It’s a winning combination for sure.”

Andrew Blankemeyer, Chief Executive Officer
Beacon Orthopaedics & Sports Medicine
